PAINT “APLAT BY WILMOTTE

The colours are different from the final result.

APLAT by Wilmotte is a high-performance and eco-friendly concept for architectural paint. The chart has been created from high quality materials often used by the architects, which will marry harmoniously with any project. Thanks to the quality of the pigments used, colours are deep and offer excellent opacity. The collection issued from this chart, has been developed according to very demanding specifications.

With its powder matt aspect, non-lustrous finish and silky touch, this paint is washable, resistant to wet abrasion and durable under intense public use. With its 85 colours and professional quality, “APLAT by Wilmotte” will meet the technical and aesthetic requirements of the most eminent architecture and design firms. Each colour family reflects the intensity of an emotion, the atmosphere of a city or a moment, the purity of a smell or a taste, the sensation of matter...

The subtlety of the shades, up to half-tone, composes a vibrant palette faithful to the universe of Jean-Michel Wilmotte. In conclusion, the “APLAT by Wilmotte” paint combines artistic sensibility with technical innovation.
